

FRUN-PCR

General purpose performance tire with aggressive unidirectional pattern design. It provide perfect control and driving comfort with its optimized profile and structure. It also provides a silent drive with its computer esthetic design.

- Circumferential rib on the tread center improves handling and braking performance .
- Stiff shoulder blocks enable exceptional cornering performance at high speeds, and provide resistance against irregular wear.
- Computer simulated block array minimizes road/pattern noise and enhances driving comfort.
- 4 longitudinal grooves and sipes array ensure for excellent water drainage, and reduce the risk of aquaplaning significantly.
- Tread compound is designed to better all-season grip, lower rolling resistance and longer mileage.

UTQG: 380AA
