

Antara

The desert can be unforgiving. Some of the world's harshest conditions require one of the world's toughest batteries – Antara. A tough battery for a tough job. Antara is unstoppable for ultimate desert proof performance.

Extraordinary batteries

Antara

The world's first desert proof battery. Designed and engineered to withstand extremes of temperature and desert dust.

Where our competitors failed we succeeded. Identifying power drain and developing a thicker lead plate to arrest this problem. A must for all heavy commercial vehicles. A real desert hero, Antara is the Arabic equivalent of the mythological figure of Hercules.

A giant achievement for any manufacturer.
